

CAPABILITY STATEMENT

DIFFERENTIATORS

- Veteran-led leadership and mission-focused execution
- Integrated PMO, IT, and staffing solutions
- Certified workforce (PMP, ITIL, DAWIA)
- Agile recruiting for specialized technical roles
- Proven support for federal programs
- Flexible cleared and non-cleared workforce delivery for mission needs

CORE COMPETENCIES

PMO Support

- PMP-certified Project & Program Management
- Program coordination, reporting, and performance tracking
- Strategic planning and operational performance improvement
- Process optimization, change management, and risk mitigation
- Contract lifecycle support (pre- and post-award)
- Policy development, program documentation, and governance

Information Technology

- IT infrastructure and technical support staffing services
- Cybersecurity professionals (RMF, ISSO, SOC, Vulnerability Management)
- Systems Administrators & Network Engineers
- Data Analysts, Data Engineers & BI Developers
- Cloud Engineers (AWS, Azure, Hybrid Environments)

Professional & Staffing Services

- Administrative, program, and project support personnel
- Technical staffing across IT, engineering, and specialized domains
- Program coordinators, analysts, and subject matter experts
- Targeted recruiting for specialized and hard-to-fill positions
- Strategic workforce planning and niche talent sourcing
- Flexible engagement models: contract, contract-to-hire, and direct hire

COMPANY OVERVIEW

GD Resources is a Woman Veteran-Owned firm delivering program support, Information Technology, cybersecurity, and professional staffing services to federal, defense, and research-focused organizations. We provide qualified personnel and operational support that help clients execute complex initiatives, strengthen technical operations, and maintain mission readiness. Our approach combines responsive service, disciplined execution, and a mission-focused understanding of customer needs to support both day-to-day operations and long-term program success.
